History

Miro Swiss Features

Company Profile

Partners

1959

Invention of the automatic juice extractor. Worldwide success and licensing agreements. First patent of Juice extractor with automatic pulp ejection.

1952

Founded as Rotel Manufacture in Aarburg, Switzerland, which produced electric kitchen appliances and motors.

1973

The world premiere of a new invention called „Rotel Vital“. A new patented development is a feeder chute to hold down the basket sieve without any screws required.

1975

Sales network in 61 countries. One million juice extractors sold on the world market. „Progress is our most important product“ - was the new slogan.

1974

Launch of model 42.1 VITAMASTER
The first modern juice press with a air-cooled multipurpose motor that runs at a constant 6,000 RPM.

1987

Mr. Urs Pfluger, at that time the President of Rotel Switzerland, founded the Thielmann-Rotel Know-How AG. He is one of few people with knowledge of juice extraction from the very beginning.

1995

The company is internationally recognised known and for the manufacture of high performance Swiss-quality juice extractors and parts.

1988

Launch of model 42.2 JUICEMASTER

This is even more modern, safe and easy to operate. To prevent oxidation, a brushed stainless steel AISI 304 body is made.

2002

Launch of model 42.6

JUICEMASTER PROFESSIONAL

New features include a large feeder chute, 7.5 cm in diameter, to squeeze whole fruit or pieces of vegetable.

2013

Founding of Thielmann Rotel International GmbH. 60 years experience in the electric household appliance business has been the solid base for the constant upgrade and improvement of its range of juice extractors.

2008

Launch of model 42.8 JUICEMASTER PROFESSIONAL Output power max. 800 watt.

New patent development

FEATURES

TOP QUALITY
based on
experience

60 years ago, Thielmann Rotel marketed the first juice extractor featuring an automatic pulp ejection system.

A highly qualified Swiss engineering team have developed the NEW "Miro Swiss"- juice extractors for the 21st century.

- Miro Swiss makes a variety of delicious fruit or vegetable juices, cocktails or cold soups.
- bars, restaurants, hotels, ice-cream parlours, canteens and hospitals.
- Suitable for continuous operation up to 24h
- UL, CSA and CE approved for professional use
- Patent

Feed tube is 7,5cm Ø - whole apples can be inserted

Highly reliable, air cooled universal motor Pnom 240Watt (230V), 270Watt (110V), Pmax 800Watt - suitable for 50 and 60 Hz, capacity: up to 60kg carrots per hour

Automatic pulp ejection system and special designed cover - prevents clogging

Juicer housing is from stainless steel AISI 304 - preventing oxidation of the juice

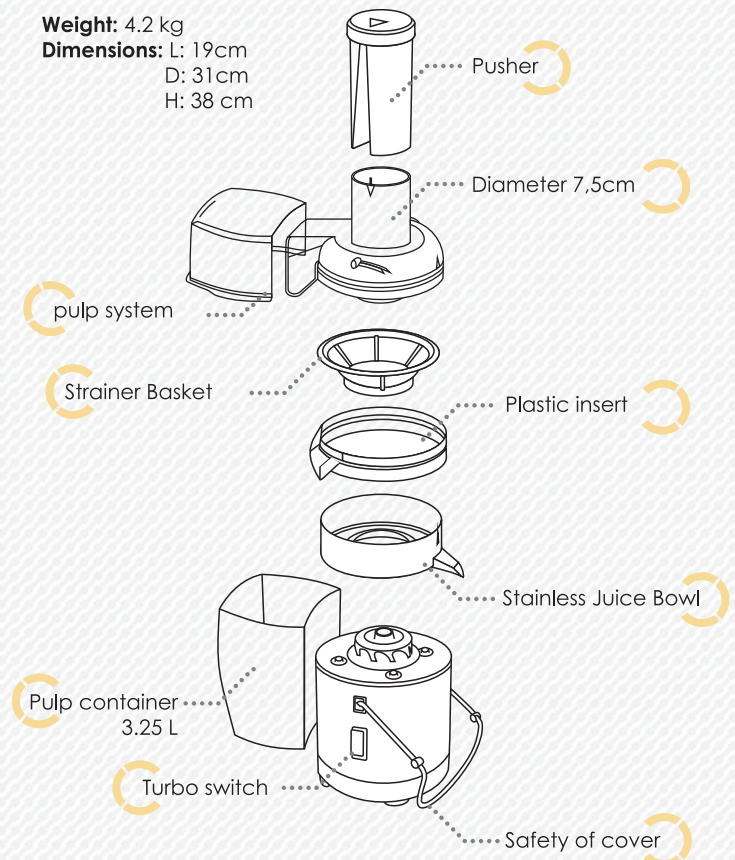

Electronically governed speed control 6300rpm - extracts fruit and vegetables to the last drop, not destroying any enzymes

Turbo boost switch - for cleaning the basket and balancing out possible vibrations

With additional safety handle lock - more protection

Simple to use – Easy to clean - cover and pulp container suitable for the dishwasher

Weight: 4.2 kg
Dimensions: L: 19cm
D: 31cm
H: 38 cm

A professional unit with a full stainless-steel body and a performance to meet the highest expectations. The unit has an extra large feeding tube and a large pulp container to enable professional juicing. It includes a very strong basket with stainless-steel cutting blades and a stainless-steel strainer mesh. This is a high quality appliance built using „swiss-technology“ for a lifetime of dependable service.
